International Mailing Service Suspended

Dear Clients/Subscribers of JARN Magazine,

Thank you for your support to JARN.

According to Japan Post, due to the Coronavirus Pandemic, delivery of postal items in many countries/territories is delayed or suspended, and also air flights have been reduced. Therefore, international mail items by air (with some exception) are not accepted by Japan Post since April 2nd. Although we are publishing JARN Magazine as usual, delivery of magazine to our clients and subscribers are difficult in this situation.

Therefore, we provide eBooks of each issue of JARN Magazine alternatively as a temporary solution which may be continued until the situation becomes better.

Please contact us if you are subscribing to JARN Magazine and have not received our notice for eBook each month.

We appreciate your understanding and do hope the situation will be better soon.

Best regards,

Keisho Ka
